SE~~N~~OR TECH CO., LTD.

i6 series features a brand new concept to present an ultra-narrow bezel screen and a sleek exterior design, with colorful frame casings to represent your elegant style. The i6 is an energy-efficient solution for a compact design that is fanless yet high-performing, enabling for a quiet, highly reliable and stylish operation.

The standard i6 provides two external accessible M.2 SSD support RAID 0/1/5/10 disk mirroring functionality, ensuring the safety of each transaction of data.

The i6 is a minimalistic modular design providing functionality. It offers a dedicated space under the screen that can be fitted with a receipt printer or barcode scanner. This device is designed to work with multiple accessories and peripheral options, including customer display, dual-screen system for display applications (2<sup>nd</sup> screen – integrated or standalone), integrated barcode scanners, card readers, receipt printers and etc.
